

Progress Report

- Increment 3 -

Group #10

Please use this template to describe your progress on the group project in the latest increment. Please do not change the font, font size, margins or line spacing. All the text in italic should be removed from your final submission.

1) Team Members

*Please write the **name** of all the team members, their **FSU IDs**, and **GitHub IDs** here.*

Christopher Hesse, CEH21, ChrisHesse0
Iskandar Verdiyev, IV22D, IskaIV
Dylan Jaworski, DBJ21B, DylanJaworski03
Panayoti Kourkoumelis, Yoti72
Blaine Timmer, BAT21b, timmerblaine

2) Project Title and Description

Title: AskANole

Description: This project will essentially work as a trading space for the FSU community where students will be able to sell and buy their things, request others to complete tasks for money such as; build their furniture, walk their dogs, mount a TV, etc.

3) Accomplishments and overall project status during this increment.

Throughout this increment, our project met important milestones, achieving a fully functional state. We harnessed Flask in Python to seamlessly connect all pages through carefully crafted URL links. Users can now engage in posting, with the added feature of seamlessly incorporating comments into posts. Additionally, the system has been refined to facilitate direct messaging, enhancing the overall user experience.

4) Challenges, changes in the plan and scope of the project, and things that went wrong during this increment

We had a slight delay in our work due to conflicting schedules prior to and during Thanksgiving break. We addressed these issues as a group and have since accomplished a grand portion of work.

5) Team Member Contribution for this increment

- a) **Progress Report:** Chris: 2, 3, Dylan: 4, 6
- b) **Requirements and Design document:** Panayoti; 2, 3, Dylan and Chris ; 4, 5 Blaine: 6 Iskandar; 7
- c) **Implementation and Testing document:** Dylan: 2, 3, 4 Blaine: 1, 5
- d) **Source Code:** Python: Chris and Dylan and Blaine, HTML: Chris & Iska & Yoti, CSS: Iska & Yoti
- e) **Video or Presentation:** The whole group

6) Plans for the next increment

For the final increment we are going to be focusing on making the website more professional using CSS. Since the website is fully functional, we will be focusing on just finding any possible bugs and fixing formatting.
